

Hurricane::DBo

```
classDiagram
    class HurricaneCell["Hurricane::Cell"]
    class HurricaneEntity["Hurricane::Entity"]
    class HurricaneDBo["Hurricane::DBo"]
    HurricaneCell --|> HurricaneEntity
    HurricaneEntity --|> HurricaneDBo
```

The diagram illustrates a class hierarchy with three classes arranged vertically. At the bottom is the base class, Hurricane::Cell, represented by a light gray rectangle. Above it is Hurricane::Entity, represented by a white rectangle. At the top is Hurricane::DBo, also represented by a white rectangle. Two blue arrows point upwards, indicating inheritance: one from Hurricane::Cell to Hurricane::Entity, and another from Hurricane::Entity to Hurricane::DBo.
